

PLIN2 antibody

Product Information

Catalog No.:	FNab00184
Size:	100µg
Form:	liquid
Purification:	Immunogen affinity purified
Purity:	≥95% as determined by SDS-PAGE
Host:	Rabbit
Clonality:	polyclonal
Clone ID:	None
IsoType:	IgG
Storage:	PBS with 0.02% sodium azide and 50% glycerol pH 7.3, -20°C for 12 months(Avoid repeated freeze / thaw cycles.)

Background

ADRP(adipocyte differentiation related protein) also known as ADFP, adipophilin, or perilipin-2, is a member of PAT family which is responsible for the transportation of lipids and the formation of lipid droplets. ADRP is localized on the surface of lipid droplets in a variety of tissues and cell lines. ADRP is not detected in undifferentiated cells but increases rapidly to high levels when adipocyte precursors differentiate into adipocytes. Anti-ADRP antibody is a reliable and sensitive marker for lipid droplet. Enhanced expression of ADRP is linked to diseases with abnormal lipid storage, including hepatic steatosis, atherosclerosis and diabetes. Immunohistochemistry of ADRP may facilitate histomorphological diagnosis of these diseases.

Immunogen information

Immunogen:	adipose differentiation-related protein
Synonyms:	Perilipin-2 Adipophilin Adipose differentiation-related protein (ADRP) PLIN2 ADFP
Observed MW:	50 kDa
Uniprot ID :	Q99541

Application

Reactivity:	Human, Mouse, Rat
Tested Application:	ELISA, IHC, IF, WB

Recommended dilution: WB: 1:1000-1:5000; IHC: 1:20-1:200; IF: 1:20-1:200

Image:

Immunohistochemistry of paraffin-embedded human liver using FNab00184(ADRP antibody) at dilution of 1:100

SW620 cells were subjected to SDS PAGE followed by western blot with FNab00184(ADRP Antibody) at dilution of 1:2000
