

## ANXA4 antibody

### Product Information

Catalog No.:	FNab00435
Size:	100µg
Form:	liquid
Purification:	Protein A+G purification
Purity:	≥95% as determined by SDS-PAGE
Host:	Mouse
Clonality:	monoclonal
Clone ID:	0G11
IsoType:	IgG2c
Storage:	PBS with 0.02% sodium azide and 50% glycerol pH 7.3, -20°C for 12 months(Avoid repeated freeze / thaw cycles.)

### Background

Annexin IV /placental anticoagulant protein II(ANX4) is a member of the annexin or lipocortin family of calcium-dependent phospholipid binding proteins, and is located at 2p13. Although their functions are still not clearly defined, several members of the annexin family have been implicated in membrane-related events along exocytotic and endocytotic pathways. ANX4 shares 45 to 59% identity with other members and possibly interacts with ATP. ANX4 has in vitro anticoagulant activity and also inhibits phospholipase A2 activity. ANX4 is almost exclusively expressed in epithelial cells. In western blotting, we get 36 kDa, 39 kDa(with modification), and 60 kDa(an unspecific band).

### Immunogen information

Immunogen:	annexin A4
Synonyms:	Annexin A4 35-beta calcimedin Annexin IV Annexin-4 Carbohydrate-binding protein p33/p41 Chromobindin-4 Endonexin I Lipocortin IV P32.5 PP4-X Placental anticoagulant protein II (PAP-II) Protein II ANXA4 ANX4
Observed MW:	32 kDa
Uniprot ID :	P09525

### Application

Reactivity:	Human
-------------	-------

Tested Application: ELISA, WB, IHC

Recommended dilution: WB: 1:500-1:5000; IHC: 1:50-1:500; IF: 1:50-1:500
